

## Mecha Mayhem Rules

Recommended Age: 4-8 years old

Number of Players: 1

Objective: To assemble the mecha by answering questions correctly before time runs out

Equipment:

- 6 Different Mecha Parts
- 6 Photoresistors
- 2 Buttons
- 1 Screen

Gameplay: In order to defeat the aliens, you must assemble a mecha by adding together all the right parts. However, in order to do this, you need to make sure you need to do what part does by answering questions about them. First, press the start button in order to begin the game. After, place the part of the mecha on its allocated spot based on the answer to the question, and press the start button again. If you answer the question right, leave the part on and move on to the next question. If you answer the question wrong, take the part off and move on. Repeat this process until every mecha part is on its slot or the time limit of a minute runs out.
